

Professional Password Recovery for Microsoft Office

October 2010. AccentSoft announces the release of Accent OFFICE Password Recovery 5 – the latest version of its software for recovering lost passwords to Microsoft Office and LibreOffice files. Version 5 combines professional capability and ease of use into one ideal tool.

Accent OFFICE Password Recovery 5 is completely reworked, with a new interface and new password recovery engine. Now easier than ever to use, Accent OFFICE Password Recovery 5 also boasts professional features that specialists will appreciate.

“Accent OFFICE Password Recovery 5 comes out of a process of working closely with users,” says project leader Denis Gladyshev. “We looked at what our users wanted created Version 5 with even greater functionality and a simplified interface. The automated password recovery system uses set scenarios and is perfect for home and corporate users who have run into problems with a lost password. Law enforcement agents, on the other hand, will want to try out Version 5’s macro language, which can significantly improve password recovery quality.”

Accent OFFICE Password Recovery 5 is highly optimized for all modern AMD and Intel processors and runs in a GPU environment on ATI Stream and NVIDIA CUDA graphics cards. This ensures top recovery speeds on all modern computers.

Ease of use and powerful technology make Accent OFFICE Password Recovery 5 one of the best professional solutions for recovering passwords to Microsoft Office and LibreOffice files.

Licenses and Pricing

Accent OFFICE Password Recovery 5 is tested and guaranteed to run on all current versions of Microsoft Windows, from Windows XP to Windows 7. The cost of a license depends on the number of graphics cards supported and starts at \$60 for a Basic license.

About the AccentSoft Team

Located in St. Petersburg, AccentSoft has been developing professional password recovery solutions since 1999. Courts, law enforcement, military and government agencies around the world use AccentSoft products to quickly and efficiently recover lost passwords.
